

A person with long dark hair, seen from behind, is sitting at a desk in a control room. They are wearing a yellow and black high-visibility vest with 'NDRRMC' printed on the back. The room is dimly lit with blue ambient lighting. Multiple large monitors are mounted on the wall, displaying various data including weather maps, satellite imagery, and data tables. The person is looking at one of the monitors.

INITIAL SETUP

Customize Your User Preferences

Go to **User ▶ Preferences** to change your DisasterAWARE settings at anytime.

Key Preferences to consider customizing

- In-app hazard notices
- Language
- Time Zones
- Bookmark (default Map View)

Setup your default Map View

Navigate your **Map** to the area you wish to see each time you log in.

Open the **Layers** panel and display any data you wish to see by default.

Then go to the **Bookmarks** panel to create a Bookmark.

In the **Bookmarks** panel, select the options button at the top-right.

Then select **Add Bookmark** and follow the promptings to create.

Return to your **User Preferences** and select that Bookmark as default.

Change Password

Go to **User ▶ Account** and select that option to change your password.

Respond Faster with Smart Alert™

DisasterAWARE is your ready-made 'Early Warning for All' System

Select Delivery

SMS: Available for U.S. phone numbers. If you do not see this option, [follow these steps](#) to setup Smart Alert notifications on your mobile device (in BETA).

Email: This can be separate from your registration email.

PRO TIP

Enter a group email to alert your team, watch office, operations center, and more.

Hazard Severity

General severity descriptions (see User Guide for more):

- Warning:** Adverse or significant impacts to population are imminent or occurring. Act Now.
- Watch:** Conditions are possible for adverse or significant impacts to population. Monitor closely and be prepared to act.
- Advisory:** Conditions are possible for limited or minor impacts to population. Exercise caution.
- Information:** Conditions are possible for limited or minor impacts to population. Stay informed.

Focused Alerting

By default, your Smart Alert Area is set to **Global**. However, some users may see default Smart Alert settings set by their organization or sub-organization.

Define Smart Alert Areas to receive Smart Alerts only for the places you care about

Enhance the monitoring and protection of specific assets (e.g. buildings, team and resource locations) via the **Assets** feature.
